

Cenário novo do Granulando

Prompts para gerar no Magnific · 6 imagens · o Claude monta tudo no jogo depois

Como gerar

1. **Referência de estilo:** use a arte do menu, `assets/inicio2.png`, em todas as imagens. É ela que deixa o cenário pintado igual ao menu.
2. **Referência de composição:** nas peças 1 a 4, use também a imagem-guia que aparece ao lado de cada prompt (os arquivos estão em `arte-cenario-ia/guias/` no GitHub). Se tiver ajuste de força, deixe **média**: segura o tronco no lugar e deixa a IA pintar do jeito dela.
3. **Formato:** retrato **9:16**, na maior resolução disponível. Na copa, depois de escolher, faça um **upscale 2x**.
4. **Variações:** gere 2 a 4 de cada e escolha a melhor. Na dúvida, mande todas.
5. **Fundo magenta liso (#FF00FF)** no lugar do céu: o céu é o jogo que desenha. Se a IA colocar céu mesmo assim, use "remover fundo" do Magnific ou mande assim que eu limpo.

Em todas as peças: tronco com cerca de **1/3 da largura** da imagem, **no centro e reto na vertical**. Nos trechos do tronco (2 e 3), a madeira entra por cima e sai por baixo com a mesma largura, para emendar. Nada de gato, guaxinim, texto ou moldura — os únicos bichos são o esquilo e a coruja.

Prompt negativo (se o Magnific tiver o campo)

text, letters, logo, watermark, signature, frame, border, UI, cat, raccoon, people, characters, photorealistic, 3D render, blurry, tilted trunk, leaning tree, perspective, sky, sun, gradient background, stars

Como me mandar

- **GitHub:** troque para o branch `claude/bold-darwin-dgilyt`, entre em `arte-cenario-ia/recebidas` e use **Add file → Upload files**, com os nomes de cada peça. Não precisa mexer na `main`.
- **Links do Magnific:** libere o domínio `pikaso.cdnpk.net` na rede do ambiente e me mande os links das criações escolhidas.

1

Pé da árvore

Raízes, portinha de fada, cogumelos, granulados caídos, floresta, montanhas com neve e cachoeira.

Guia:
guia-1-base

Salvar como **base.png**

Formato 9:16

Referências estilo: **inicio2.png** (arte do menu)
composição: **guia-1-base.png**

Prompt completo (já com o estilo) — copie tudo:

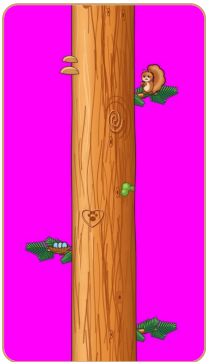

Vertical 2D mobile game background, the base of one gigantic tree seen straight from the front. The trunk is perfectly vertical and centered, about one third of the image width, and continues beyond the top edge of the image. At the bottom it flares into thick roots that sink into the ground. Between two roots on the left: a tiny round green fairy door with a glowing round window and a small hanging lantern. At the foot of the tree: a few spilled light-brown wood pellets, red mushrooms with white spots, small white and pink flowers, grey rocks and round green bushes. A green ivy vine climbs the lower left part of the trunk, and three shelf mushrooms grow on its right edge. Behind the tree: a layered pine forest, two big round leafy trees framing the left and right edges, distant snowy blue mountains, and a small waterfall falling between rocks into a little pond on the right side. The sky is a flat solid magenta color (#FF00FF) with no clouds, no sun and no gradient. Grassy ground along the bottom edge.

Style: cute cozy 2D cartoon mobile game art, hand-painted look with soft painterly shading, bold dark-brown outlines, warm vibrant colors, orange-tan tree bark with wavy wood grain and spiral wood knots, lush green foliage with yellow-green highlights, blue-green pine trees, clean readable shapes, high detail, same art style as the reference image. Front view, no perspective tilt.

2

Tronco, trecho 1

Ninho com ovinhos, coração com patinha, esquilo com pinha e cogumelos de prateleira.

Prompt completo (já com o estilo) — copie tudo:

Vertical 2D mobile game background tile: a straight section of one gigantic tree trunk, perfectly vertical and centered, about one third of the image width, running from the very top edge to the very bottom edge of the image with the same width everywhere, so several sections can be stacked seamlessly. Orange-tan bark with wavy vertical wood grain, one big spiral knot and small wood "eye" knots, lit from the left with a soft shadow on the right side, dark-brown outline on both edges. Details on this section, from bottom to top: a small pine branch on the right side; a pine branch with lush needle clusters coming out of the left side, holding a bird nest with three light-blue eggs; a heart carved into the bark with a little paw print inside; a pine branch coming out of the right side with a cute small squirrel sitting on it holding a pine cone; two small shelf mushrooms on the left edge near the top. Everything outside the trunk and the branches is a flat solid magenta background (#FF00FF): no sky, no clouds.

Style: cute cozy 2D cartoon mobile game art, hand-painted look with soft painterly shading, bold dark-brown outlines, warm vibrant colors, orange-tan tree bark with wavy wood grain and spiral wood knots, lush green foliage with yellow-green highlights, blue-green pine trees, clean readable shapes, high detail, same art style as the reference image. Front view, no perspective tilt.

3 Tronco, trecho 2

Buracos de pica-pau, coruja no oco do tronco e galhos de pinheiro.

Formato 9:16 e depois upscale 2x

Referências estilo: **inicio2.png** (arte do menu)
composição: **guia-4-copa.png**

Prompt completo (já com o estilo) — copie tudo:

Vertical 2D mobile game art: the top of one gigantic pine tree seen from the front, centered and filling the full height of the image. Dense tiers of pine branches with drooping, scalloped needle edges, each tier casting a soft shadow on the one below, getting narrower toward a pointed tip that touches the top edge of the image. Brown pine cones hang from the tiers. The upper tiers are covered with soft white snow because it is cold up there. Near the bottom, a thick ring of big fluffy white clouds wraps around the base of the crown, and a short piece of the orange-tan trunk continues below the clouds to the bottom edge. Flat solid magenta background (#FF00FF) everywhere else: no sky, no stars, no sun.

Style: cute cozy 2D cartoon mobile game art, hand-painted look with soft painterly shading, bold dark-brown outlines, warm vibrant colors, orange-tan tree bark with wavy wood grain and spiral wood knots, lush green foliage with yellow-green highlights, blue-green pine trees, clean readable shapes, high detail, same art style as the reference image. Front view, no perspective tilt.

5 Nuvens

Seis nuvens separadas, de tamanhos diferentes.

Salvar como **nuvens.png**

Formato 1:1 (quadrado)

Referências estilo: **inicio2.png** (arte do menu)

Prompt completo (já com o estilo) — copie tudo:

A set of 6 separate fluffy cartoon clouds for a 2D mobile game, different sizes (2 large, 2 medium, 2 small), white with soft light-blue shading at the bottom and a thin soft blue outline, arranged in a loose grid with plenty of empty space between them, not touching each other, on a flat solid magenta background (#FF00FF).

Style: cute cozy 2D cartoon mobile game art, hand-painted look with soft painterly shading, bold dark-brown outlines, warm vibrant colors, orange-tan tree bark with wavy wood grain and spiral wood knots, lush green foliage with yellow-green highlights, blue-green pine trees, clean readable shapes, high detail, same art style as the reference image. Front view, no perspective tilt.

6 Galhos

Quatro galhos de pinheiro separados.

Salvar como **galhos.png**

Formato 16:9

Referências estilo: **inicio2.png** (arte do menu)

Prompt completo (já com o estilo) — copie tudo:

4 separate pine tree branches for a 2D mobile game, each one horizontal and growing from the left toward the right, brown bark with a dark-brown outline and lush dark-green needle clusters with light-green highlights, well separated from each other on a flat solid magenta background (#FF00FF).

Style: cute cozy 2D cartoon mobile game art, hand-painted look with soft painterly shading, bold dark-brown outlines, warm vibrant colors, orange-tan tree bark with wavy wood grain and spiral wood knots, lush green foliage with yellow-green highlights, blue-green pine trees, clean readable shapes, high detail, same art style as the reference image. Front view, no perspective tilt.
